

GEOSPEED QUANTUM. A QUANTUM LEAP FORWARD: THE NEW STANDARD IN PAPER PACKAGING SYSTEMS

- Simple to load and operate
- Safe and reliable
- Industry leading speed
- Compact, state-of-the-art design
- Optimal ergonomics
- Environmentally responsible

EASY TO LOAD PAPER ROLL

The GeoSpeed® Quantum™ paper packaging system is the perfect choice for those seeking an eco-friendly and cost-effective solution for hard to package items, small voids, or sharp and unboxed items.

Fast, durable, and simple to operate, the Quantum converts rolls of Renew™ or Standard recycled content (RC) paper into tightly crumpled paper cushions for void fill, cushioning, wrapping, or blocking and bracing purposes.

Small Voids

Sharp Products

Loose/Unboxed Items

GEOSPEED QUANTUM FEATURES, BENEFITS, ADVANTAGES:

User Friendly: intuitive design, simple controls, quick and easy paper loading.

Reliable: patented design minimizes paper jams, optimizes uptime and productivity.

Fast: industry leading 150" per second of output.

Durable: made in the USA with long lasting parts.

Portable: lightweight and easy to move.

Optimal Ergonomics: simple adjustability of machine height, paper dispense angle, roll position, and run speed allows the operator to configure the system to comfortably fit their needs.

Versatile: can be used on a floor stand or mounted directly to a pack table, making it a perfect fit in tight pack stations or next to a conveyor.

GEOSPEED RENEW PAPER FEATURES, BENEFITS, ADVANTAGES:

Environmentally Responsible: contains 100% recycled content and is biodegradable, recyclable, and renewable. Rolls are shipped cartonless and without other secondary packaging materials.

Optimal Ergonomics: softer on the hands and easier to tear and pack with. Less abrasive to products than standard kraft paper.
