Section 8 - Exposure Controls / Personal Protection

Engineering Controls: Local ventilation recommended.

Ventilation: Provide general or local exhaust ventilation to areas using this adhesive. Local exhaust ventilation is preferred because it prevents contaminant dispersion into the work area by controlling it at its source.

Administrative Controls: Not applicable.

Respiratory Protection: Not required under normal use.

Protective Clothing/Equipment: Wear protective gloves and long sleeved shirt to prevent skin contact. Wear protective eyeglasses or safety goggles, per OSHA eye- and face-protection regulations (29 CFR 1910.133). Contact lenses are not eye protective devices. Appropriate eye protection must be worn instead of, or in conjunction with contact lenses.

Safety Stations: Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Contaminated Equipment: Cooled adhesive may be removed from clothing by freezing affected area and picking off.

Comments: Never eat, drink, or smoke in work areas. Practice good personal hygiene after using this material, especially before eating, drinking, smoking, using the toilet, or applying cosmetics.
