

TBS Series

Automatic Top and Bottom Sealers

Whether you need a stand-alone case sealer to boost productivity or a sealing solution integrated at the end of your Combi case packing line, TBS sealers offer a reliable solution for your needs. Using the same heavy duty tubular steel frame as other Combi systems, the TBS is built tough for years of top performance. 3M Accuglide II+™ tape heads efficiently seal the top and/or bottom of the widest range of cases and tape roll changes are easy to perform. With Combi's TBS sealers, changeovers between case sizes are simple and repeatable on this compact machine.

Features:

- Heavy duty tubular steel construction
- Quick changeovers - tapehead and sidebelt adjust simultaneously resulting in one less manual adjustment
- Oversized drive motors
- Safety interlocked guarding
- Seamless Combi system integration
- 3M Accuglide II+™ tape heads

Options:

- Stainless steel framework
- NEMA 4 compliant washdown components
- Low tape/No tape alarm system
- 3" Accuglide II+™ tape heads
- Custom sealing for any application

Standard 2" 3M Accuglide II+™ tape heads

Dual oversized drive motors with adjustable belts
