

AIRSPEED INFLATABLE VOID FILL FILM OPTIONS FOR AIRSPEED 5000 AND SMART SYSTEMS

All Pregis films are true to size

Commercial Grade Film:

- Heavy duty performance
- Transparent, clean and neat
- 100% recyclable as category #4
- Excellent puncture resistance and seal strength

EP-Flex:

- 20% - 50% less resin content than alternative films - overall source reduction in packaging materials used
- Stronger and more durable than competitive films
- Excellent tensile strength – stretches while other puncture
- Engineered for stronger, more resilient seals

EP-Flex Renew:

- Same high performance as standard EP-Flex film
- Includes a natural, organic bio-additive to accelerate biodegradability
