

Cooljacket

Thermal Mailers

Cooljacket thermal mailers are the ideal way to protect your perishable items during transit. These light-weight insulated mailers are made from a durable, moisture resistant, multi-layer blend of co-extruded polyethylene film. The exterior film is laminated to a unique insulating lining that not only keeps your perishable items fresh, but also protects from damage. The bright white exterior film creates the professional image you are looking for and our pressure sensitive self-seal adhesive closure system is reliable, tamper-evident and easy to use. This is the perfect mailer for laboratory specimens, pharmaceuticals, perishable food items and most other temperature sensitive product.

Custom Solutions

Cooljackets can be sized to meet your specific requirements. **Make your Cooljacket even "cooler" with custom printing!** Our six color printing capabilities enables us to print even the most complex designs.

Benefits

- Superior insulated properties combined with gel packs keep perishable product at the required temperature during transit.
- Compared to insulated totes and foam coolers, you will save on freight costs, warehouse storage space and pallet space.
- Cushioned insulation helps protect product from damage.

Cooljacket

Thermal Mailers

Closure System

Pressure sensitive (self-seal) adhesive closure is reliable and tamper-evident. **Anti-stat** release liner peels off quickly. Easy to load contents and seal package when the packing process needs to be fast and efficient.

Exterior Film

Multi-layer (co-extruded) polyethylene film. Durable, moisture resistant with exceptional puncture resistance and tear strength. Clean white, aesthetic appearance.

Construction

Sideweld heat seals and bottom fold construction offers superior bursting strength. Your contents will remain secure from the point of origin to its destination.

Interior Insulation

Foil-lined foam insulation keeps your temperature sensitive product at its required state and perishable items fresh while providing effective cushioning for more fragile products during transit.

Custom Capabilities

Custom, high quality graphics with up to six ink colors on two sides. Enhances your corporate image and product value with immediate brand recognition. Custom sizes available.
