Will erect blank, accumulate product, load and seal case or tray blanks for: Food Products, Personal Care Products, Drygoods, Chemicals and other Industrial Applications. Converts in minutes to tray packer.

The RAP-UP Series 90 is a custom engineered automatic case/tray packing machine. The machine's efficient design is tailored to your particular requirements and allows the capabilities of case/tray blank erecting, loading and sealing. Changeover can be accomplished in a matter of minutes, with most adjustments made using handcranks and no special tools.

Through the use of production tested designs, backed by over 30 years of Compacker experience and proven performance, the RAP-UP provides optimum productivity. Like all Compacker equipment, it is engineered to meet your exact needs to reduce labor costs and improve line speed.

FEATURES

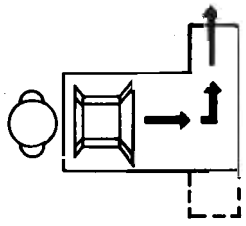

- Automatic or semi-automatic models available
- Choice of case or tray blank styles
- Convertible from RAP-UP to tray blanks
- Easy changeover with most adjustments made by handcranks and requiring no special tools
