

Pregis Easypack® Quantum™ Pro

High-Volume Paper Void Fill

Pregis Easypack® Quantum™ Pro is an on-demand paper void fill system for centralized, high-volume environments. The Quantum Pro features the patented floating head design that made its predecessors so reliable by virtually eliminating paper jams.

Auto-tear is the newest innovation in the Quantum series – cleanly separating the paper for a packer to simply grab and pack.

ENHANCED FEATURES INCLUDE:

THROUGHPUT AND AUTOMATION

- High volume dispenser perfect for centralized fulfillment
- Magazine holds 5 bundles – 500 ft³ of packaging without changeover

SUSTAINABILITY

- Curbside recyclable paper solution
- Made with FSC® recycled paper material

RELIABILITY AND SIMPLICITY

- Floating head design is virtually jam free maximizing uptime
- Simple interface with manual and automatic dispensing options

PACKER CENTRIC

- Auto-tear technology to simply grab and pack
- No blades or exposed parts keeps packers safe from harm
- Loads in seconds

Part of a complete family of paper packaging solutions from Pregis!

PAPER OPTIONS:

Item #	Bundle size	Formulations	Applications
