

PTC-16/19

Manual Tensioner for High-Strength
Tenax® Polyester Strapping

New feedwheel design:

- Maximizes tension
- Increases productivity
- Provides unlimited strap take-up

Windlass tools, with limited strap take-up, oftentimes jam, resulting in lower strap tension.

Durable construction

- Rugged alloy components
- Steel cutter and feedwheel

Easy to operate

- Two-strap loading
- Easy to position

Simple

- Built-in cutter
- Wear parts can be replaced in minutes
- Strapping can be used directly off the coil

Specifications:

Strapping: For use with 5/8" and 3/4" (16mm and 19mm) High-Strength Tenax® Polyester Strapping

Weight: 4 lbs. (1.8 kg)

The PTC's feedwheel design provides unlimited strap take-up to ensure consistent tension.
