# Polyjacket

## Flat Poly Mailers

### Closure System

Pressure sensitive (self-seal) adhesive closure is reliable and tamper-evident. Release liner peels off quickly. Easy to load contents and seal package when the packing process needs to be fast and efficient.

### Material

Multi-layer (co-extruded) polyethylene film. Durable, moisture resistant with exceptional puncture resistance and tear strength. Clean white, aesthetic appearance. Effective protection for your documents and valuable products. Enhances your corporate image and customer perception of your product(s).

### Construction

Sideweld heat seals and bottom fold construction offers superior bursting strength. Your contents will remain secure from the point of origin to its destination. Side pouch seal construction is also available.

### Stock Products Program

Plain white Polyjackets are available in 8 industry standard sizes. Offers low minimum quantities and immediate shipment. Save money by ordering only what you need.

### Custom Capabilities

Custom, high quality graphics with up to six ink colors on two sides. Enhances your corporate image and product value with immediate brand recognition. Custom sizes available.

LDPE

The Polyjacket is 100% recyclable.
